

Job Specification – Junior Developer

Location: Winnersh Triangle, near Reading

Job type: Full Time

Job title: Junior Developer

Reporting into: Development Manager

Keywords: HTML5, CSS, JS, C#, ASP.NET MVC

THE COMPANY

Artesian, a market leading name in Sales & Risk intelligence software is looking for a Senior Developer to join their growing in-house development team.

Artesian is a privately held, profitable company with around 200 large enterprise customers equating to 30,000 subscribers. Our customer satisfaction is 99.1% and retention rates are some of the best in the SaaS industry.

We are a talented team of 40 employees, headquartered near Reading Berkshire, with an aim to double in size in the next two years and we are seeking a junior developer to help build the platform that underpins this growth. Check us out at <http://artesian.co>

ROLE PROFILE

This is a great opportunity for a .NET Developer who has a good University degree in Software Engineering, Computer Science or another STEM related subject. You will join a team of expert Developers working with the latest Microsoft development toolkit building enterprise scale web applications used by thousands of people across the UK. You will work as part of a development team of 15 where you will be involved in all aspects of the development lifecycle following an Agile development methodology.

Tools: Latest Visual Studio suite, ReSharper, Subversion, Git, TeamCity, JIRA

Programming languages/frameworks: C#, .NET, ASP.NET, MVC, JQuery, Angular

Technologies: Elastic Search, Lucene.NET, SQL Server, Xamarin, Kibana, Logstash

ESSENTIAL EXPERIENCE

- An excellent understanding of responsive CSS and the ability to use it to create "pixel-perfect" application pages from mock-ups
- Building client-side interactivity with JQuery and other JavaScript libraries
- Intimate knowledge of building HTML applications, cross-browser work essential
- Experience of using RESTful API end-points with common data formats like XML and JSON
- Understand how to work with IE, Firefox, Chrome and Safari
- More design flare than you normally find in a .NET developer, with a keen eye for detail
- Working with web-based applications using Microsoft ASP.NET C# 6 & MVC 5 (Razor)

KEY ATTRIBUTES:

- Degree educated (or equivalent)
- At least 12 months programming experience, MS Visual Studio and C#
- A keen interest in programming, good OO knowledge, enthusiasm for modern design patterns and open source projects
- Experience of Agile & Scrum, or at least a desire to use such approaches
- Knowledge of modern relational databases, SQL and relational implementation concepts
- Willingness to learn, team oriented, tenacity and enthusiasm for quality
- Lives (roughly) within the Reading-Slough-Guildford-Basingstoke quad
- Experience of JIRA, Subversion and continuous build environments

In addition to a competitive salary, our benefits package includes; share options, health cover discounts, 25 days holiday, free food & hot drinks, active social-club and flexible working conditions.
